A Fine Thing for the Teeth
Fragrant SOZODONT is a composition of the purest and choicest ingredients of the Oriental vegetable kingdom. Every ingredient is well known to have a wonderful effect on the teeth and gums. Its embalming or antiseptic property and aromatic fragrance makes it a toilet luxury. SOZODONT removes all disagreeable odors from the breath caused by catarrh, bad teeth, etc. It is entirely free from the injurious and acrid properties of tooth pastes and powders which destroy the enamel. One bottle lasts six months.

A NEW CLIMATE FOR NEVADA.

The cultivation of the soil of Nebraska has done much to change the climate of that State. Its annual rainfall was formerly only 20 inches; now it is 33 inches. Then only 5 inches of the rainfall were absorbed, the rest running off the surface of the hard soil; now the absorption of moisture by the cultivated soil is estimated at 20 inches. As a result of these changes, many new springs have leaped into life, and slender streams have grown to rivers.

These changes which have taken place in the climate of Nebraska strengthen our hopes of Nevada. Her vast arid plains, where now the sagebrush parches in the heat of the summer sun, may yet be transformed into green pastures and fields of grain, wet by abundant rains from heaven. The reclamation of great areas by means of irrigation from artesian wells may be the first scene in the grand transformation. The forces of nature will conspire to assist in the work. The more water the farmer pours upon the land, the more will be showered down from the clouds. Trees will catch and retain the moisture. The broken land will drink it in, and give it back in grass and grain and fruit. Every productive acre makes the reclamation of the adjoining desert easier. Climb the mountains on a summer day and look down upon Washoe valley. See what a marvelous change a few years have wrought. The valley is chequered with squares of green and squares of yellow, fields of clover and fields of grain; dotted with cattle feeding on fertile meadows bordered with green trees, row on row. Twenty years ago the eye would have roamed over a barren, sandy desert, unrelieved, save along the margin of the river, by a single patch of green—a desert in which some wandering Indian with his pony would have been the only living things in sight. The waters of the Truckee have made the change. The waters which nature has hid deep down below the great valleys to the south and east and north may yet be raised to the surface and do as much for them.

A BAD RECOMMENDATION.

Gov. Kinkadee's message contains the following recommendation: "There is now in the State School Fund, subject to investment, about \$100,000. The money can, under the constitution, be invested in but two ways—either in United States bonds or in securities of this State. The only government bonds obtainable bear four per cent interest, and are now at a premium of over 11 per cent in the market. It would therefore be a beneficial investment for the School Fund to take \$100,000 of our State bonds, bearing four per cent at par. The issuance, in addition, \$100,000 six per cent bonds, which I am sure can be negotiated at par, will carry the State through the year upon a cash basis."

To adopt this suggestion would appear to be taking an unfair advantage of the School Fund. There seems to be no good reason why the State should not pay the same interest on money borrowed from the School Fund as it would be obliged to pay on money obtained from other sources. Yet it is proposed to compel a loan from the School Fund at the rate of four per cent, while putting bonds at six per cent on the market for sale. This is not right. The School Fund is a sacred trust, and the State is its Trustee. What would be thought of an individual Trustee who would loan trust funds to himself at a third lower rate of interest than he would have to pay on money obtained from any other source? Yet this is precisely what the State of Nevada would be doing, should the Governor's recommendation be carried into effect. It is true, as he in substance states, that the School Fund cannot help itself in the matter, but does that make the case any better? Of course, Gov. Kinkadee means no wrong in this matter. He looks at it merely from a standpoint of policy. But the rights of the poor children of Nevada are concerned in this proposition, and they should not be wrongfully deprived of one cent that the School Fund can be made to earn for their education.

BULLION PRODUCTION.

The S. F. Bulletin publishes the following table of the bullion production for 1880 of the States and Territories west of the Missouri river. It will be seen that Nevada has dropped to the third place, and that Colorado now takes the lead. The yield of the precious metals in 1880 exceeded by about five millions that of 1879:

California \$18,276,200

Nevada 15,031,600

Oregon 1,059,600

Washington 105,200

Idaho 1,894,700

Montana 3,822,400

Utah 6,451,000

Colorado 21,285,000

New Mexico 711,300

Arizona 4,472,800

Dakota 4,123,100

Mexico (west coast) 2,000,600

British Columbia 844,800

\$80,168,000

EDITORIAL NOTES.

Referring to the death of the Rev. Dr. Chapin, the famous Universalist minister, the New York Sun says: "The truth is, Universalism is becoming a part even of orthodoxy; and when orthodox ministers join in the exercises at Dr. Chapin's funeral they will not need to indulge in apology for their conduct. So far as concerns the doctrines which nominally separated the dead clergyman and orator from them, they are in substantial agreement with his views. They have given up hell as it was formerly preached, and their churches are filled with Universalists."

The nomination in caucus of General John F. Miller by the Republicans of the California Legislature makes it a foregone conclusion that he will be elected to succeed Booth in the U. S. Senate. The Democrats have nominated Chief Justice Wallace, who will receive their complimentary vote.

"The love that kills" has had another illustration in James Walsh, of Brooklyn N. Y., who stabbed a girl to the heart because she refused to marry him. His was literally love with a vengeance.

The Nevada Senate is opened every morning with prayer, while the Assembly refuses to employ a chaplain. There is evidently great lack of Godliness in the Assembly.

"A general flavor of mild decay" seems already to pervade the Carson Index.

Last year there were 4,946 miles of railroad built in the United States.

The latest fashionable color in London is called the "flattered frog."

Col. Fair on Constantinople.

From the Carson Appeal.

"Constantinople is a great place," said Col. Fair, throwing his legs carelessly over the arm of the chair. "Full of dogs and fleas; millions of fleas for the dogs. Some of the dogs, however, have no fleas on—not enough to go round you. When the Sultan goes to church he takes his army along to protect him while he prays. I thought how different it was here in Nevada, where a man can pray all day unmolested. I never saw such a little runt of a man. He looked like a little starved rat. Why, Sharon would make two of him."

A Young Man's Terrible Temptation.

A St. Louis young man promised his sweetheart a seal-skin sash as a Christmas present; but had no money to buy it. In that dilemma he slipped into a dark alley, fastened a gag in his own mouth, blackened his own eye, and told those who found him that he had been knocked down by robbers, who took away the sash. But he confessed under cross-examination.

A Coming Race.

Miss Pinneo, of Colorado, has challenged the feminine world to a twenty-mile saddle race for \$10,000, and, also, it is to be presumed, for the title of championess. Miss Curtis, of Kansas, has accepted the challenge of Miss Pinneo, and Miss Jewett, of Minnesota, who has beaten Miss Pinneo, will perhaps be ready to ride against the winner.

The Chronicle says miners are leaving Virginia every few days, and more would get away if they could. The majority of those who go are bound for Arizona.

There is skating on the Virginia rink, but the ice is thin, and members have to go on very early in the morning. During the day, the ice gets soft and unsafe.

No new cases of small-pox have been reported at Virginia for several days.

There is snow at the upper end of Paradise valley.

CONFLICTING RETURNS.

Did Garfield or Hancock Receive Plurality of Votes at the November Election?

From the New York Tribune.

Accurate returns of the vote cast at the late Presidential election are slow in coming in. Different tables have been published—one by the Republican papers, giving Garfield a plurality of 3,600 over Hancock, and another by the Democratic papers, placing Hancock 6,000 ahead of Garfield. The Chicago Inter-Ocean prints a table which it says was compiled by a committee of Congressmen at Washington, the figures of which were obtained from the Secretary of State in each State. In this table the total vote is placed at 9,241,338, of which Garfield received 4,480,249, Hancock 4,453,498, Weaver 307,998, and scattering 19,593. This puts Garfield 7,751 ahead of Hancock. But the Inter-Ocean claims that there is an error in the returns from Kansas by which Garfield loses 6,028 votes, Hancock 2,884 and Weaver 1,251. If this is allowed, the total vote would be 9,251,496, and Garfield's plurality would rise to 9,890. The Congressional table places Hancock's majority in Alabama, Louisiana, Mississippi and South Carolina a little above 154,000. As it is well known that, at a moderate calculation, there is in these four States a Republican majority of 75,000, and as at least 200,000 Republican votes were suppressed in the other Southern States, it is safe to say that Garfield's popular majority would have been 300,000 had there been a full vote and a fair count everywhere.

Big Meadows (Humboldt, Nev.) farmers are plowing.

There are eight little Washoe county orphans in the "Home" at Carson.

What Dr. Gardner Says:

TOLEDO, Ohio, January 1, 1879.—The California Porus Plaster Company. Gentlemen: Please send immediately one gross of your Pine and Eucalyptus Porus Plasters. I have been using them in my practice for the past three months and find their effects most wonderful, especially in Lung troubles and all affections of the Spine and Kidneys. In my judgment they are far superior to any Plasters manufactured. I can conscientiously recommend them to my professional brethren.

THE BOSS!
Edison Outdone.

Over 150,000 Sold.
Patented April 2, 1878, June 11, 1878, and July 8, 1879.
Boss Coffee, Tea Pots & Urns.
It is the Boss! Why? Because it produces Boss Coffee.
It makes rich flavored Coffee! Why? Because all the aroma and food are retained.
It beats them all! Why? Because it saves 100 per cent over boiled Coffee, which is not Coffee, but bitter water. Second—Because it saves 50 per cent over any other method of making Coffee and Third—Because it saves eggs and trouble of clarifying. Fourth—Because it makes Coffee as clear as red wine. Fifth—Because it takes only two minutes to make Boss Coffee.
The Boss works as well on Tea, and saves 25 to 50 per cent.
While Edison may furnish light to millions, the BOSS will assuredly give health to all who use it. Thousands have become dyspeptic and bilious from drinking boiled coffee or BITTER WATER, (boiled coffee is not coffee, but bitter water poisoned with coffee oil). Stop drinking boiled coffee. Make your coffee as NATURE ORDAINED, and restore your health. Many inventors have racked their brains to furnish the human family with a practical method of making coffee. At last the HAPPY RESULT has been accomplished in the production of very cheap and simple Pots and Urns celebrated as the BOSS.

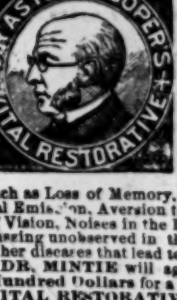

MISCELLANEOUS.
To Whom It May Concern:—After thoroughly testing the BOSS COFFEE PUT, we, the undersigned, fully endorse the same as the best method of making Coffee we have ever seen. Besides saving eggs, it will save a large per cent. of the Coffee. It produces Coffee as clear as wine, which is much stronger, and has a more delicious flavor than any coffee made by any other process.
